STRATEGIC PLAN OVERVIEW

ARTS VISION

The Arts Vision at Holly Springs-Motlow Elementary is to inspire educators to create a school environment that strives to show students they can be successful academically and artistically.

ARTS MISSION

To educate the whole child by allowing students to explore all modalities of learning, thereby creating a culture where the arts are seamlessly infused into all areas of instruction.

ARTS GOALS

- To further develop quality, standards-based arts programs.
- To further implement quality professional development opportunities in arts integration for all teachers.
- To establish through advocacy and arts education a positive relationship with the arts among school leaders, teachers, parents, students and community
- To further acquire and provide a variety of resources and enhance existing facilities and resources.

POINTS OF PRIDE

- We feel so privileged to be able to provide our students with quality experiences that utilize the arts by coordinating times for our students to work alongside artists in residence.
- We are in a partnership with ArtsNow. Through this partnership, our teachers have the opportunity to see quality arts-infused lessons demonstrated by highly qualified arts teachers. Additionally, teachers have time to reflect with the master arts practitioner on what this would like in their classrooms in the future!
