STRATEGIC PLAN OVERVIEW

ARTS VISION

We will provide authentic, meaningful learning experiences in and through the arts to engage all students in learning through creativity, critical-thinking, collaboration, and partnership in an involved community.

ARTS MISSION

All students will have access to arts experiences in creative writing, dance, music, theater, and visual arts where they are able to create, present, perform, connect, respond, and reflect. PD opportunities for teachers and administrators provide the support and resources needed for arts education and integration. Community involvement and support are reflected in our arts program.

ARTS GOALS

- To strengthen student achievement in the arts by engaging in standards-based arts experiences in all arts areas.
- To use data to create a comprehensive, sequential, standards-based arts program.
- Develop functional facilities and adequate supplies/materials that support engagement in arts as students present, perform, connect, and reflect upon their opportunities.
- All staff will be trained in arts content and integration through PD opportunities.
- Partner with parents, stakeholders, and the community to promote the arts and arts integration at school and in the community.

POINTS OF PRIDE

- Rosewood Art's Day is a celebration of students as artists/performers and teachers participate by doing arts integrated lessons throughout the day. Visiting artists and performances happen throughout the day as well.
- Arts-focused professional development happen monthly.
- Arts integration and arts classes are supported by our school community.
- Arts-focused professional development and/or collaborative planning happen monthly.
