STRATEGIC PLAN OVERVIEW

ARTS VISION

To afford students the opportunity regularly and comfortably exhibit their learning, feelings, and/or personality through self-initiated, creative expressions.

ARTS MISSION

To provide equal access to an effectively delivered high
quality arts integrated curriculum and extracurricular enrichment in the arts for all of our students, and to build mutually beneficial partnerships that bring local artists and arts organizations to our school for residencies, workshops, performances, and other programs. Through curricular and after-school offerings in music, dance, theater, and visual art, and through exposure to a wide range of art-based programming, our students improve critical-thinking skills, develop visual and musical literacy, enhance communication skills, gain a wider cultural perspective, and learn standards-based materials through the lens of fine arts.

ARTS GOALS

- Provide and sustain a standards-based fine arts program inclusive of music, visual art, dance, and theatre.
- Logan Elementary will transition from an arts enhanced environment to an art integrated environment.
- By 2027, Logan Elementary will be structured as an arts magnet school.
